The category of Eviction posted the largest payment advance of any emergency, increasing by $21,401 to $123,412. This resulted from greater activity with the suburban (+$16,857) and urban (+$4,105) counties. Most of the advance ($15,113) occurred within the non-AFDC segment. The suburban counties represented $10,112 of this growth.

Another major payment change involved migrant families whose numbers increased dramatically from three during May to 83, thereby inducing a $15,100 advance in payments to $17,842. The 11 counties recording payments to migrant families during June were Clay $7,925, Polk $1,850, Chippewa $100, Kandiyohi $1,495, Morrison $300, Norman $780, Renville $1,996, Rice $88, Steele $329, Swift $95, and Wilkin $2,884.

During fiscal year 1984, $1,600,813.73 was expended for Utilities by the county agencies. This represents 40.8% of the EA payments during the fiscal year. This emergency category is shown below.

Cases averaged 879 during the year, 32 (3.5%) less than fiscal year 1983. The urban counties (-68) were primarily responsible for the yearly change, with Hennepin and St. Louis Counties off 92 (22.3%) and four (7.7%) respectively.

Fiscal year expenditures totalled $3,918,881, a gain of $430,061 (12.3%) from fiscal year 1983. Urban county costs alone were $2,547,118 or 65% of the state total. This was $110,984 (4.6%) greater than the previous year. The suburban and rural counties sustained payment increases, too, the suburban counties up $226,633 (57.5%) and the rural counties up $92,445 (14.0%).

The average monthly payment per case was $371.53 in 1984, $52.27 (16.4%) higher than the previous year. The average number of persons per family was 3.45, only slightly more than the 3.42 recorded during 1983.

Minnesota Supplemental Aid (MSA) This program remained stable during the month, with recipient numbers advancing slightly by two and expenditures inching upward by $22,532 (1.9%).

Recipients totalled 10,163 in June. The monthly recipient increase was the combination of higher numbers in the Aged (+3) and Disabled (+6) categories, which was nearly cancelled by a decline in the number of Blind recipients (-7). This decline occurred because refunds and cancellations involving the Blind were more numerous during June.

Payments reached $1,229,975 during the month. Increased costs resulted from higher Disabled payments (+$29,761). Greater current (+$17,294) and corrective (+$19,637) payments, accompanied by lower refunds and cancellations (-$10,670) were the general areas of change. The focus of the Disabled change, however, occurred in the urban category and involved both Ramsey and

St. Louis Counties. In Ramsey County, higher current payments (+$4,588) coupled with lower refunds and cancellations (-$9,446) resulted in a $15,100 gain. In St. Louis County, the change resulted primarily from a $16,448 advance in corrective payments but was bolstered by lower refunds and cancellations (-$9,446) as well.

Recipients averaged 10,018 per month during fiscal year 1984. This was 41 (0.4%) greater than recorded last year. The Disabled category was responsible for this increase, rising 177 (2.5%) from one year ago.

Expenditures averaged $1,140,397 during each month of the fiscal year. This was $66,138 (6.2%) higher than the monthly average for the previous period. The growth of expenditures since the implementation of the MSA Program in 1974 has been steady and is shown in the following table.

*1974 expanded for comparison purposes.

General Assistance (GA) The total number of persons receiving GA for June 1984 was 25,907. This was 63.2% more than the 15,870 persons receiving GA in October 1983. This substantial increase is attributable to an increase in the number of GA-eligible persons considered employable: those people referred to MEED or required to register with Job Services. In June, 15,390 persons, 59.4% of the total GA population, were employable. This was 2.4 times greater than the 6,404 employable persons receiving a payment in October.

There has been a substantial change in GA participation since October 1983, particularly in the non-urban counties. The majority of Minnesota's GA recipients continues to be in the urban counties, Hennepin, Ramsey, and St. Louis, but the proportion of non-urban recipients has increased. Non-urban recipients increased by 89.4% (from 4,835 to 9,159) from October to June. This increase is chiefly due to the increasing numbers of employable persons. The June number of employable persons was 3.5 times greater than the October figure.

Within the urban counties, the growth in Ramsey County has been slower than in Hennepin and St. Louis. The following graph shows that the relationship between Ramsey and St. Louis has changed. Since April, St. Louis County has replaced Ramsey as the county with the second largest number of recipients.

Application activity decreased compared to May. The number of applications received was 7.9% lower and the total applications on hand decreased by 7.8%. The number of applications disposed of decreased by 7.1% to 6,318. Of these, 5,528 (87.5%) were approved.

The 5,528 cases added in June brought the total cases eligible to 29,324. This was an increase of 5.1% compared to May. Payments were made for 23,390 (79.8%) of the eligible cases. There were 4,084 cases closed which left 25,240 eligible cases continued to July.

*The sum of the numbers of persons by exemption/referral status is greater than the total number of persons because the count of persons is duplicated in Ramsey County when the status changes during the month.

**The "exempt from referral" counts are slightly inflated. Some persons and payments included here should be included with those "referred to Job Services but not MEED".

(1)This table represents state Medicaid system payments plus payments made by counties to primarily medical vendors not covered by the central payments system. Also, in this table, each person is counted under all service categories for which payment is made in his/her behalf during the month.

(2)Recipient recoveries represent third-party collections such as health insurance payments, tort recoveries, and estate settlements, which cannot be tied directly to a specific service billing. The dollar values under this category are always negative.

TECHNICAL NOTES

Table I — Application activity for the AFDC Program does not include applications for medical only needs.

Table II — Under MA, total Persons Concurrently Receiving AFDC are not included when calculating the total number of persons receiving assistance. This is done to unduplicate the total count since these people are already counted under the AFDC Program.

Table III — This table does not include cases and payments made under the Emergency Assistance Program.

Tables V & VI — Medical Assistance - The program is broken into two components:

(1) Those recipients who had a vendor payment made in their behalf and are not concurrently receiving a money payment (the MA-Only group).

(2) Those recipients who are concurrently receiving a money payment (AFDC, SSI, MSA) and a medical vendor payment was also made in their behalf.

The counts are of people in whose behalf a payment was made out of the State's Centralized Medical Payments System during the month specified.

GLOSSARY

AFDC-UB	AFDC UB . . . An unborn child is included under the definition of child in the AFDC Program and grants are determined accordingly. For this reason, we have counted them as recipients. It is possible for a case which is currently receiving money under another subprogram (such as Unemployed Father or Regular AFDC) to receive an additional amount due to the presence of an unborn child. In instances such as this, the unborn will appear in the child count, but there will be no case or caretaker count since they are carried under the other subprogram.
